

Kazbek Assanbek

Full-Stack / Frontend Developer

ABOUT ME

Frontend-focused developer building modern web applications with React, Next.js and TypeScript. I also work with backend technologies such as FastAPI, PostgreSQL and Docker. I enjoy creating practical products, integrating APIs, deploying applications and continuously improving my engineering skills.

PROJECT EXPERIENCE

MG Drive — Web Developer

2026

Interactive car showcase and 3D web project.

- Built and adapted a modern interactive web application
- Worked with React-based UI and responsive layouts
- Optimized performance and assets
- Prepared the project for production deployment

TerraCon — Full-Stack Developer

2026

Construction/real estate platform.

- Developed frontend interfaces and application logic
- Integrated backend functionality and APIs
- Worked with reusable components and responsive design
- Configured deployment and production environment

Telegram Assistant — Full-Stack Developer

2026

Personal assistant bot with smart auto-replies.

- Built a Telegram assistant with delayed message aggregation
- Implemented per-chat context and multi-language support (RU/KZ/EN)
- Worked with backend logic, database storage and deployment
- Designed user-friendly conversation flow

Personal Portfolio — Frontend Developer

2026

Personal website for showcasing projects and skills.

- Built with Next.js and TypeScript
- Added responsive UI, animations and modern design
- Configured SEO, custom domain and HTTPS
- Deployed to production (Vercel/Netlify)

Pixel Lane — Engineering Project

2025 – 2026

Smart-city traffic management platform.

- Developed interactive map editor with Next.js, FastAPI and PostgreSQL
- Implemented road network modeling, lane connections and traffic rules
- Worked with map rendering, geospatial data (OSM) and 2.5D visualization
- Team project with focus on real-world urban simulation

EDUCATION

International Information Technology University (IITU)

2023 – 2027

Bachelor's Degree in Computer Engineering
Almaty, Kazakhstan

TECHNICAL SKILLS

Frontend

React · Next.js · TypeScript
JavaScript · Tailwind CSS · HTML · CSS

Backend

FastAPI · Python · PostgreSQL
REST API · SQLAlchemy · Alembic

Tools & DevOps

Git · GitHub · Docker · Nginx
Vercel · Netlify · Railway

Other

Responsive Design · API Integration
Basic Testing · Deployment

LANGUAGES

Kazakh	Native
Russian	Fluent
English	Intermediate

CURRENT FOCUS

Full-Stack Development
Backend Engineering
Go / Python
Algorithms & Data Structures
Building real-world products
